The Cyferd Logo:

Specifications & Alteration Restrictions

The Cyferd logo is available in 3 different colours and 3 different layouts. Colour and layout can vary per project and can be dependent on space available as well as the background on which the logo will be used.

The Cyferd logo should not be animated, rotated or skewed, and no colour or effects may be applied. Recreating or staging the logo is not permitted. The logo font and proportions should not be changed.

The typography of the Cyferd logo is always upper case and all letters have the same height. The typography of the Cyferd logo must not be altered in any way.

The Cyferd Logo: Logo Colour Options

The Cyferd logo is available in Dark Blue, Black, and White.

It's crucial to optimise the logo's visibility by choosing the appropriate logo for the background. Ensure a minimum contrast ratio of 4.5:1 to guarantee sufficient contrast.

- A dark blue logo should be the first choice to use. It should be used on light coloured backgrounds.
- A black logo should only be used on greyscale designs or where the dark blue logo does not suit.
- A white logo should only be used on dark coloured backgrounds.

The Cyferd Logo: Logo Layouts

The Cyferd logo can be displayed in 3 different layouts:

1. Icon In Front Of Name
2. Icon Centred Above Name
3. Icon Only

The designated space surrounding the Cyferd logo, where no other text should be present, is referred to as the “exclusion zone.” This clear space, as illustrated in the diagram, is determined by the height of the letter “C” in the word Cyferd surrounding the logo. The exclusion zone scales in proportion with the logo (i.e. the bigger the logo, the larger the exclusion zone).

The Cyferd Logo: Icon in Front

- The icon always sits in front of the name.
- The exclusion zone, as well as the distance between the icon and the name, will be the height of the letter "C" in Cyferd.
- The height of the exclusion zone is measured from the top and bottom of the logo's name rather than the top and bottom of the icon.

The Cyferd Logo: Icon on Top

- The icon always sits above the name
- The exclusion zone, as well as the distance between the icon and the name, will be the height of the letter "C" in Cyferd.
- The width of the icon is equal to the distance between the letters "Y" and "R" in Cyferd, as per the diagram below.
